

NOTES:

- Updated: 18-August-2011
- Registration Ready Sites, Other Sites, and New Concepts will each have a Gallery page that will allow users to filter the content into a more manageable and relevant list. From there, they can click to view details of an individual record.
- This document only contains a Gallery design for the Registration Ready Sites page, but the designs for the others will be very similar with somewhat different filter options.
- For TB Drug Trials, we are considering presenting the information in tabular form on a combined gallery / detail page. Examples of layout options can be found here:
